

NEZAR

DEVELOPER • CREATOR • BUILDER | Manchester, UK | shamenezar@gmail.com

PROFILE

Developer and creator who learns by building. Experience across Python, web development, Unity/C#, C++ and AI projects, with real client work through NizzyCreative and independent game development through Fernio Games. Looking for opportunities to learn, contribute, work with teams and build useful things.

SKILLS

Programming: Python, C++, C#, JavaScript, HTML/CSS **Development:** Web, Unity, AI/API integration, automation **Creative:** UI/web design, branding, Photoshop, Illustrator **People:** Client communication, teamwork, presenting, problem solving

EXPERIENCE

NizzyCreative — Founder • Developer • Creator (2026–present)

Built a small web design/development business. Delivered a paid client website, handled requirements and communication, and worked across development, branding, pricing and social media. The delivered client project received a 5-star review.

Fernio Games — Founder • Developer

Started and ran an independent game studio with a friend. Published a collection of games across multiple genres, developed in Unity and other tools, and collaborated with other creators.

SELECTED PROJECTS

NizzBot — Personal Python AI assistant using the Grok API, email automation and face-recognition features.

Clashing Candies — First game; collaborative two-player fighting game built with friends. Programming and development plus wider project coordination.

A Tale of Tails — Pixel RPG/adventure built with a friend in Unity as part of Fernio Games.

Arab Run — Solo Unity endless runner project.

EDUCATION

Xaverian College — Year 12 (2026–2028) | Computer Science, Maths, Physics

ACHIEVEMENTS & CERTIFICATES

3rd place STEM competition — team leader and presenter • Programming Hero Python “Baby Steps” • Codecademy Computer Science Diploma for Teens, first semester • YAT Academy Photoshop & Adobe Illustrator
